

# Northside Tennis Crown for Youth---Two Nassau Players in Golf Final

## BINZEN VICTOR IN NORTHSIDE TENNIS

Young Fordham Player Wins Title, Defeating Baasford in Straight Sets.

SCORES 6-2, 9-7, 6-4

Play Is Fast in Spite of Intense Heat and Is Watched by Large Gallery.

By EUGENE R. O'CONNELL.

Elliot Binzen, the young Fordham player, won the Northside tennis championship yesterday at the University Heights Tennis Club courts and gained a tag on the Tribune cup, by defeating Henry Baasford in the final round of the singles in straight sets at 6-2, 9-7, 6-4. In spite of the terrific heat the players showed plenty of energy and speed and a large gallery packed the courts to watch the match.

It had been planned to begin play at 10 o'clock, but both of the contestants were delayed on their way to the courts and did not get to the clubhouse until after 3. The way things turned out it was probably a great deal better for the players that the match did not start on time, for in the early hours of the afternoon the heat was unbearable. Around 4 o'clock a very slight breeze came up over the river, and while it would be a relief on the weather man to say that this little puff cooled things it can be said that it made the players and spectators feel a little less uncomfortable.

Match Well Conducted.

The club committee is to be congratulated on the way the match was handled. Jimmie Henderson, the referee, was assisted by a full corps of line-men, and what is more to the point they were on the job all of the time. As a result there was no time lost in debating questionable strokes or in playing strokes over, and the match went along smoothly without unnecessary delays.

Binzen was right at the top of his game, and his great speed and vigor more than made up for the greater court experience of his opponent. He had plenty of confidence in his ability to score a victory and started a match with a rush. Binzen seemed intent upon finishing the contest as quickly as possible and went after everything that looked as if it might leave an opening for making a point.

Baasford started the service and won the opening game with a loss of only one point. This, however, was due not to the fact that he was outplaying the youngster, but because Binzen, in his anxiety to claim the ball back for a placement overhit and sent the sphere out of bounds.

Binzen's service which is always better than his return, was the key to his victory. He was able to get the ball into the court in a way that Baasford could not return it.

An index of the relative strength of the players was the manner in which they handled each other's service. Young Binzen stood in half way to the net line to take what Baasford had to offer in the way of delivery, while Baasford stood as far back of the baseline as space would permit when Binzen was shooting. Twice during the match Binzen left Baasford standing at footed back of the court by slipping over easy underhand serves which Baasford could not reach much to the amusement of the gallery.

Binzen's service which is always better than his return, was the key to his victory. He was able to get the ball into the court in a way that Baasford could not return it. The opening set brought out the best tennis of the match. Both of the players were giving all they had and showed many brilliant returns. Binzen after dropping the first game, won a cluster of three quite easily. The youngster took the fourth game through a return of service which was somewhat better than the first, but he quickly recovered his form and evened up the set by taking three games in a row. From then on the men won on service and it was not until the fifth game that Binzen was able to break through. He won the set on his own service.

Binzen Starts Well.

Binzen started the third set auspiciously by breaking through Baasford's first game, but promptly dropped the next two. He took the lead again by winning the next two, but Baasford answered by taking a couple himself. This put Baasford in the lead at 4-2, but he could not hold his advantage, for Binzen broke and carried off the next three games, which gave him the set and match.

Binzen later reached the final round of the doubles with Henderson and defeated Albert J. Oxtendert and Francis T. Hunter in the semi-final round, two sets to one at 6-4, 6-3. Binzen and Henderson will meet Albert Behr and Vincent Richards in the final round for the championship to-morrow. The summaries:

## WRIGHT AND HALL VICTORS AT TENNIS

Defeat Little and Mahan in Exhibition Doubles at Glen Cove.

Plus Three in Bogey Handicap

He Wins From Big Field by 4 Up.

Special Dispatch to The Sun.

MANHATTAN, N. Y., July 4.—A. L. Walker, Jr., of the Richmond County Country Club, playing almost the part of a champion, defeated Raymond D. Little and Lyle M. Mahan yesterday in an exhibition doubles match on the turf at the Nassau Country Club, Glen Cove, Long Island. The winners took the match in straight sets at 6-1, 6-1, 6-4.

For men that had not been playing to the best of their ability, the match was a remarkable work. Wright's accuracy, court generalship and steadiness worked in exceptionally well with Hall's speed and powerful driving. Should the match play together throughout the season it would be a mighty hand combination to beat.

No matches were played in the regular exhibition tournament at the club. Hall and Wright were scheduled to meet in the final round of the singles, but Hall was unable to make arrangements to get to the courts. The doubles were not played because Leonard Beckman, who is teamed with Hall, was compelled to remain away.
